Source: Based on question Q.8, see Annex I. \* = further disaggregation by product is not possible due to the limited number of observations.

**Figure A.PL.14 - Amount and interest rate of the financial products applied for**

Source: Based on question Q.9, see Annex I. N/A = value Based on less than 10 observations. In some cases respondents did not indicate the amount or the interest rate probably due to the fact that they are less confidential in sharing this kind of information.

**Figure A.PL.15 - Could you negotiate... (Total: considering short-term, medium-term, long-term loans, and credit lines)**

Source: Based on question Q.10, Q.11 Q.12, and Q.13 see Annex I.

Source: Based on question Q.14, Q.14bis and 15, see Annex I. Note: disaggregation by product is not possible due to the limited number of observations. The percentage of respondents who report not to have been asked to provide guarantee seems to be very high considering ordinary banking practice. There is no obvious explanation for this result, which would require further analysis. One possible explanation could be that a substantial part of lending to agricultural enterprises, is provided in the form of personal/consumer loans not requiring guarantee. The result might also be the result of a non-correct understanding of the question. For these reasons results referred to Questions Q14, Q14bis and Q15 should be treated with caution.
